
a
Urban center used in pattern detection
Urban center skipped due to proximity
Radius around urban center
First-order connectivity
Second-order connectivity
Third-order connectivity
Fourth-order connectivity
Skipped radial
Identified as radial
b
Non-connected nodes
Connected nodes
New node
Connected nodes beyond the average radius (x_i)
Average radius, $r_{avg} = \Sigma_{i=1}^{N} r_i / N$
Accepted range, $r_{avg} \pm \Delta r$
Initial search radius (r)
r_{avg}
C
θ
$10°$
l
r_i
Δr
